

Greenbank Residential Provision

Outcome of Young Person's Well-being Questionnaire **November 2022**

Ideas and recommendations from the 2021 questionnaire:

- More visits to the cinema
- More4
- More board games

What we did following the 2021 questionnaire:

- Trips to the cinema – this is an option at the end of term for treats or if there is something particular the young people are interested in they can request to go.
- We have purchased a number of new board and card games to enhance the variety of choice for our young people.
- All other ideas and recommendations were different activities that the young people need to talk to their staff members about, Senior Childcare Associates fed back through the staff meeting the list of activities, to be considered when planning.

Evaluation of the 2022 questionnaire:

We handed out 47 questionnaires and 46 were returned. Thank you to all the young people and staff, this is an excellent response. Three Resi YP were not surveyed because either they were unwell or they did not attending resi during the week of the survey.

The majority of young people like the activities they take part in, with the most popular activities being:

- Free time
- Computers
- Eating out
- Bowling

The majority of young people expressed they like Resi, the activities they take part in and being with their friends, but some said they miss their family.

32 out of 42 of the Y/P who answered the question (76%), said that they felt their belongings were safe whilst staying at Resi. This is a 6% improvement on last year, all Y/P were reminded that they had lockable bedside cupboards for their belongings.

31 out of 41 of the Y/P who answered the question (75%) felt very confident that staff would look after them if they were ill. 9 of the YP were confident that staff would

look after them, only I YP wasn't confident, but explained that they had never been ill whilst at resi.

Here are some of the things that were said:

ALL THE ACTIVITIES ARE FUN, THE STAFF ARE NICE, I LIKE PLAYING ON THE SUPER NINTENDO, I LIKE HAVING FUN WITH MY FRIENDS, I LIKE "EVERYTHING" ABOUT RESI, I LIKE STAYING, WE GET TO GO BOWLING, EAT OUT AND GO TO THE CINEMA, I LIKE GOING OUT TO ACTIVITIES.

Ideas and recommendations from the 2022 questionnaire:

- Change the resi menu, different meals and puddings
- More visits to theme parks, water parks, lazer tag
- Different / more movie DVDs

What we have done so far to meet the needs and the wishes of the young people as a result of the 2022 questionnaire:

We have already changed the resi menu as a result of the survey and gathered feedback about what the YP would like to eat at a council meeting. We are in the process of further evaluating the responses from the survey and exploring the ideas and recommendations.
